QUALITY PRODUCTS THAT DON'T COST THE EARTH

## INTRODUCTION

UAP Limited was established in 1996 and has since become a leading UK supplier and distributor of decorative door hardware and specialised Locksmith tools and security products. With 15 years of quality products, excellent service and competitive prices, UAP has grown from strength to strength, year on year and expanded significantly. We have an in house Research & Development Department, meaning we are constantly enhancing our current ranges as well as introducing innovative state-of-the-art products that are not only practical and beautifully designed, but also put through stringent quality control checks at every stage of development. From door knockers, door viewers, letter plates, letters and numerals to cylinder locks, security products and more, all of our products are available in a wide range of sizes, colours, materials and finishes to ensure we can meet every possible requirement.

## AN ETHICAL APPROACH TO BUSINESS

'Quality Products That Don't Cost The Earth' isn't just our sales slogan, but a statement about our wider philosophy. It means we value our people and our planet and we are keen to make a positive difference to the wider communities we touch through our work and via the profits we make.

For everyone at UAP, our ethical policy isn't just a statement that is allowed to gather dust in a file somewhere, but rather something we all show through taking real action. So in practice this means;

### Reducing our carbon footprint:

Thanks to the UK registered charity 'Plant-a-tree-today.org' we have offset all of our carbon emissions. We have funded the planting of more than 56,000 trees over the course of a three year reforestation project, which will enable the reintroduction of many endangered and native wildlife. We have now finished the installation of solar panels on our buildings.

### Environmentally friendly fleet:

All of our company cars are environmentally friendly hybrids to reduce our impact on the environment.

### School projects:

After teaming up with local charity, DCWC Nepal, we have helped to fund the building of 5 much needed community primary schools in one of the poorest countries in the world. Before the scheme, children as young as 5 years old had to endure an exhausting and dangerous 4 hour walk to and from school, 6 days a week. To raise awareness of this worthy cause, we have worked closely with former Coronation Street star Sean Wilson, best known as Martin Platt, who opened the schools on our behalf. To date, the scheme has given more than 1,000 children the opportunity to learn and better their lives.

### Charity support:

In 2010, we hosted a Charity Ball to raise vital funds for DCWC Nepal to immunise 10,000 children from tuberculosis. In the wake of the 2011 tsunami and earthquake disaster in Japan, we supported the Red Cross through donations. We have also supported Comic Relief through the charity bids known as 'Twit Relief'. On top of this, several members of staff participate in charity runs every year to raise money for The Christie and Breast Cancer Research UK.

**STOP KEY FISHING**

Key fishing through the Letterplate is a real problem especially in the inner-cities. But it can be stopped very effectively with a Letterplate Shroud, which can be fitted in minutes.

Letterplate Restrictor Shrouds stop Key Fishing and can be fitted to any 12" UAP Letterplate.

FOR WOODEN/COMPOSITE DOORS

Up until now a door has had to be opened for caller's ID to be studied, and that's never easy with the person standing there, or fumbling attempts are made to pass the ID card through the letterbox, again not so straightforward with modern insulating brushes or inner flaps for the elderly to contend with.

Identity Card Slots allow users to check a callers ID without opening or unlocking the door. When fitted alongside a UAP Door Viewer unwanted entry can be stopped in it's tracks.

THE SHOCK ABSORBER FOR LOCKS  
**PICKBUSTER®**  
[www.pickbuster.co.uk](http://www.pickbuster.co.uk)

A  
**STEP-BY-STEP  
 GUIDE**

THE 4 SIMPLE STEPS TO USING PICKBUSTER

STEP 1: Open your Pickbuster pack.

STEP 2: Remove a single Pickbuster sachet.

STEP 3: Cut off the application end of the sachet

STEP 4: Slowly squeeze the contents of Pickbuster into the lock. You may wish to leave this overnight to allow the contents to fully settle into the lock.
